SOUND ADVICE COMPOUNDED OVER TIME

1. Introduction

In terms of the Financial Advisory and Intermediary Services Act, 2002, KANAN WEALTH (PTY) LTD (“the FSP”) is required to maintain and operate effective organisational and administrative arrangements with a view to taking all reasonable steps to identify, monitor and manage Conflict of Interest (“COI”). Section 3A(2)(a) of the FAIS General Code of Conduct (“GCOC) stipulates that every financial services provider, other than a representative, must adopt, maintain and implement a conflict-of-interest management policy that complies with the provisions of the Act.

2. Purpose

The purpose of this policy is to comply with these obligations and provide for mechanisms in place to identify, mitigate and manage the conflicts of interest to which the FSP is a party. In addition, to ensure alignment between the values of the organisation and the conduct of its people by safeguarding clients’ interests and ensuring the fair treatment of clients.

The FSP is committed to ensuring that all business is conducted in accordance with good business practice. To this end, the FSP conducts business in an ethical and equitable manner and in a way that safeguards the interests of all stakeholders to minimise and manage all real and potential conflicts of interests. Like any financial services provider, the FSP is potentially exposed to conflicts of interest in relation to various activities. However, the protection of our clients’ interests is our primary concern and so our policy sets out how:

- we will identify circumstances which may give rise to actual or potential conflicts of interest entailing a material risk of damage to our clients’ interests;
- we have established appropriate structures and systems to manage those conflicts; and
- we will maintain systems in an effort to prevent damage to our clients’ interests through identified conflict of interest.

To achieve the objectives set out above, this policy sets out the rules, principles and standards of KANAN WEALTH (PTY) LTD COI management procedures, by documenting them in a clear and understandable format.

3. Scope of application

This policy is applicable to the FSP, all providers of the FSP, key individuals, representatives, associates. The FSP is committed to ensuring compliance with this policy and the processes will be monitored on an ongoing basis.

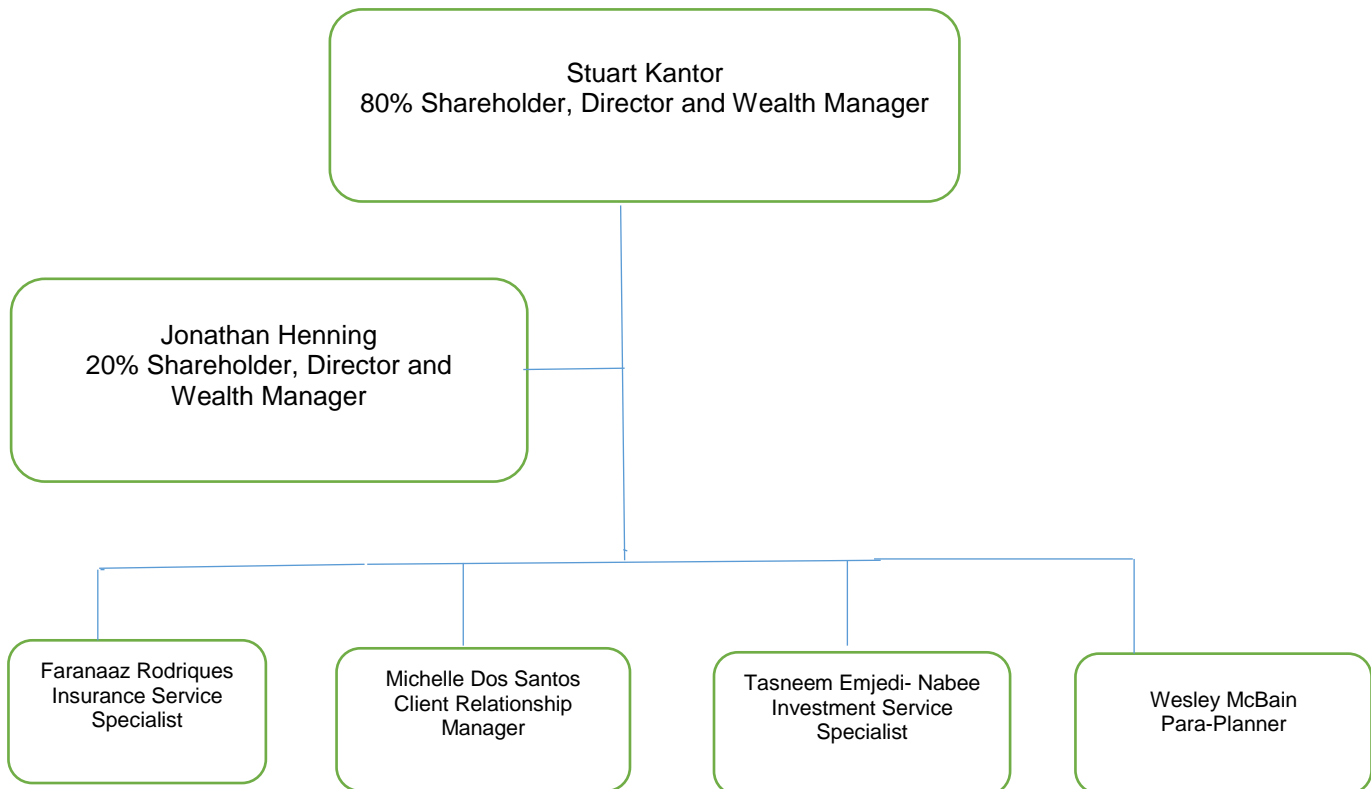

Any non-compliance with the policy will be viewed in a severe light. Non-compliance will be subject to disciplinary procedures in terms of FAIS and employment conditions and can ultimately result in debarment or dismissal as applicable.

Avoidance, limitation or circumvention of this policy via an associate will be deemed non-compliance.

KANAN WEALTH (PTY) LTD with registration number 2019/277726/07. The FSP is a (Pty) Ltd with two directors and shareholders namely Stuart Kantor and Jonathan Henning. Stuart Kantor and Jonathan Henning are the KI's and the Representative of the FSP and the FSP has four (4) administrative staff.

Please see the organogram below:

4. Understanding Conflict of Interest

4.1 When is it a Conflict of Interest?

A COI means any situation in which the FSP or one of our representatives has an actual or potential interest that may, in rendering a financial service to our clients -

- influence the objective performance of obligations to that client; or
- prevents us from rendering an unbiased and fair financial service, or
- prevents us from acting in the interests of that client.

An “actual or potential interest” includes but is not limited to:

- A financial interest, which includes any cash, cash equivalent, voucher, gift, service, advantage, benefit, discount, domestic or foreign travel, hospitality, accommodation, sponsorship, valuable consideration, other incentive or valuable consideration which exceeds R1000 per calendar year.
- An ownership interest which means any equity or proprietary interest and any dividend, profit share or similar benefit derived from that equity or ownership interest.
- Any relationship with a third party, meaning any relationship with a product supplier, other FSP’s, an associate of a product supplier or an associate of the FSP. A third party also includes any other person who, in terms of an agreement or arrangement, provides a financial interest to the FSP or its representatives.
- An immaterial financial Interest, which is any financial interest with a determinable monetary value, the aggregate of which does not exceed R 1 000 in any calendar year from the same third-party in that calendar year received by –
 - o a provider who is a sole proprietor; or
 - o a representative for that representative's direct benefit;
 - o a provider, who for its benefit or that of some or all of its representatives, aggregates the immaterial financial interest paid to its representatives;

4.2 What type of interest may we Give and Receive?

The FSP and our representatives may only offer to and receive specific financial interests from a third party, which includes the following:

KANAN
Wealth

SOUND ADVICE COMPOUNDED OVER TIME

1. Commission as authorised under the Long-term Insurance Act (52 of 1998), the Short-term Insurance Act (53 of 1998) and the Medical Schemes Act (131 of 1998).
2. Fees as authorised under the Long-term Insurance Act (52 of 1998), the Short-term Insurance Act (53 of 1998) and the Medical Schemes Act (131 of 1998).
3. “Other fees” specifically agreed to by the client and which can be stopped by the client at their discretion but only if agreed in writing with the client, including details of the amount, frequency, payment method and recipient of those fees, as well as the details of services to be provided in exchange for the fees.
4. Fees or remuneration for services that were rendered to a third party.
5. An immaterial financial interest.
6. Any other financial interest not mentioned above for which a consideration, fair value or remuneration that is reasonably commensurate is paid by that provider or representative, at the time of receiving that financial interest.

4.3 On what basis may we Give and Receive Financial Interests?

The financial interest referred to in points 2, 3, and 4 above may only be offered or received by the FSP or its representatives, if:

- The financial interests are proportionate (reasonably commensurate) to the service being rendered, considering the nature of the service, the resources, skills and competencies that are reasonably required to perform it.
- The payment of those financial interests does not result in the FSP, or representative being remunerated more than once for performing the same service.
- Any actual or potential conflicts between the interests of clients and the interests of the person receiving those financial interests are effectively mitigated; and
- The payment of those financial interests does not impede the delivery of fair outcomes to clients.

4.4 Financial Interests for Representatives of the FSP

The FSP may not offer any financial interest to a representative of that FSP –

- For giving preference to a specific product of a product supplier, where a representative may recommend more than one product of that product supplier to a client.

KANAN
Wealth

SOUND ADVICE COMPOUNDED OVER TIME

- For giving preference to a specific product supplier, where a representative may recommend more than one product supplier to a client
- That is determined with reference to the quantity of business, without also giving due regard to the delivery of fair outcomes for clients.

In relation to delivery of fair outcomes for clients, the FSP must demonstrate that a determination of a representative's entitlement to a financial interest, considers measurable indicators, relating to the:

- Achievement of minimum service level standards in respect of clients
- Delivery of fair outcomes for clients; and
- Quality of the representative's compliance with the FAIS Act.

The measurable indicators are agreed in writing between the FSP, and its representative and sufficient weight (significance) are attached to these indicators to materially mitigate the risk of the representative giving preference to the quantity of business secured for the FSP over the fair treatment of clients.

The FSP does not offer a sign-on bonus to any person, other than a new entrant, as an incentive to become a provider authorised or appointed to give advice.

The way in which the FSP remunerates its representatives and complies with these requirements, is set out in section 6 of this policy.

5. Processes and Internal Controls to manage Conflict of Interest

5.1 Identification of Conflict of Interest

To adequately manage COI, the FSP must identify all relevant conflicts timeously. In determining whether there is or may be a COI to which the policy applies, the FSP considers whether there is a material risk of unfair treatment or bias for the client, taking into account whether the FSP or its representative, associate or employee:

KANAN
Wealth

SOUND ADVICE COMPOUNDED OVER TIME

- is likely to make a financial gain, or avoid a financial loss, at the expense of the client;
- has an interest in the outcome of a service provided to the client or of a transaction carried out on behalf of the client, which is distinct from the client's interest in that outcome;
- has a financial or other incentive to favour the interest of another client, group of clients or any other third party over the interests of the client;
- receives or will receive from a person other than the client, an inducement in relation to a service provided to the client in the form of monies, goods or services, other than the legislated commission or reasonable fee for that service.

Our policy defines possible conflict of interest or examples of conflict of interest as, inter alia, -

- between the FSP and the client.
- between our clients if we are acting for different clients and the different interest's conflict materially.
- where associates, product suppliers, distribution channels or any other third party is involved in the rendering of a financial service to a client.
- storing confidential information on clients which, if we would disclose or use, would affect the advice or services provided to clients.

Stuart Kantor and Jonathan Henning will assess the implications of the conflict and how the conflict should be managed, acting impartially to avoid a material risk of harming clients' interests.

5.2 Measures for avoidance and mitigation of Conflict of Interest

To ensure that the FSP can identify, avoid and mitigate COI situations, the FSP creates awareness and knowledge of applicable stipulations, through training and educational material. Where a COI situation cannot be avoided, these instances are recorded on the FSP's conflict of interest register.

The FSP ensures the understanding and adoption of the FSP's conflict of interest policy and management measures by all employees, representatives and associates through training on the COI policy.

KANAN
Wealth

SOUND ADVICE COMPOUNDED OVER TIME

Stuart Kantor and Jonathan Henning assess each conflict, including whether the conflict is actual or perceived, what the value of the conflict or exposure is and the potential reputational risk. Compliance and management then agree on the controls that need to be put in place to manage the conflict. Once a conflict of interest has been identified it needs to be appropriately and adequately managed and disclosed, in line with the below steps.

5.3 Measures for mandatory disclosure of Conflict of Interest

Where there is no other way of managing a conflict, or where the measures in place do not sufficiently protect clients' interests, the conflict must be disclosed to allow clients to make an informed decision on whether to continue using our service in the situation concerned.

In all cases, where appropriate and where determinable, the monetary value of non-cash inducements will be disclosed to clients. The Key Individuals will ensure transparency and manage conflict of interests. The client must be informed on the Conflict of Interest Policy and where they may access the policy.

5.4 Ongoing monitoring of Conflict of Interest Management

The key individual or staff member in charge of supervision and monitoring of this policy will regularly monitor and assess all related matters. The FSP will conduct ad hoc checks on business transactions to ensure the policy has been complied with.

The Compliance Officer will include monitoring of the Conflict of Interest policy as part of his/her general monitoring duties and will report thereon in the annual compliance report.

This policy shall be reviewed annually and updated if applicable. The compliance function is outsourced to an external Compliance company with no shareholding in this FSP. The Compliance practice functions objectively and sufficiently independently of the FSP and monitors the process, procedures and policies that the FSP has adopted to avoid conflicts of interest.

5.5 Registers

With regard to existing third-party relationships, being the product suppliers listed in our Contact Stage Disclosure letter, The FSP does not have any Product Suppliers. Should any conflicts arise with regard to any of these, prior to entering into any business transaction with you, we undertake to disclose these in the registers below.

KANAN
Wealth

SOUND ADVICE COMPOUNDED OVER TIME

All gifts, financial interest, immaterial financial interest and any other COI situations as outlined in this policy, must be recorded in the FSP's COI register, attached as Annexure A.

6. Remuneration Policy

This section of the Policy specifies the type of and the basis on which a representative of the FSP will qualify for a financial interest that the FSP offers and motivates how that financial interest complies with the requirements of this policy. Our remuneration policy is indicated below:

The FSP's remuneration will be based on as-and-when statutory commission and/or asset-based fees based on the business that has been placed onto the books of the FSP. This will include recurring commission and/or asset-based fees earned on active policies and investments.

Other remuneration is received from fees for services rendered such as:

- Fees & Commission
- Other Fees as in our disclosure documents and Service Level Agreements
- Fee Sharing Agreements with our peripheral service providers.

From the income received the FSP will cover general practice running cost and overhead expenses. This might include ad hoc capital outlay.

All staff, including directors, receive salaries and bonuses.

Shareholders share in profits of the business as and when available.

The wellbeing of the FSP and its clients are at the centre of the FSP's approach and all expenditure will be in line with the FSP's solvency requirements as put forth by legislation.

No possible conflict of interest was identified.

The FSP monitor if more than 30% commission from one Product Provider and disclosure documents are updated accordingly.
